I love Northwest Florida State College because of how helpful everyone on campus is. Professors, Student Advisors, Admissions office, etc. They're all a pleasure to work with. I'd love for the college to be able to include more student organizations to make time more fun.

Wonderful school! The academics are strong, the student body is involved and accepting, and the teachers care. I can't recommend this school strongly enough!

I love that Collegiate High School gives their students an opportunity to graduate high school with their AA degree! The staff there are all amazing and very helpful. The only thing I would suggest for the school to have their own mascot.

Collegiate High School is a great school. The teachers follow you and classes are small enough that you get to know everybody personally. There are many clubs you can participate in but unfortunately no sports, hence the 4/5 stars. You don't get the full "high school experience" but you can always participate in sports, clubs, and football games at other public High Schools. You can also take numerous music and fine art classes on the College campus starting from your Sophomore year. You graduate with an Associate's Degree, which saves a lot of money given the expenses of colleges these days. Capstone is also a great project all seniors are involved in. Collegiate High School prepares you for college and the professional world very well.

Collegiate High School is an amazing program that allows students to get their associates degree at the community college Northwest Florida State College for free. The school is extremely welcoming to all different kinds of people and everyone has their place. During sophomore year of high school, there are only five 5 teachers in the building, but they make learning interesting and extremely fun. After sophomore year, students begin taking college classes with professors to begin earning their AA. Personally, I wouldn't change anything about the school. I love it.
