One of the things I like about RBCS is that we get to take a class on Bible history. My experience at RBCS has been great, my teachers have been amazing; even the ones I don't necessarily like.

Rocky Bayou is one of the most unique places I have ever heard of and been. I have gotten the privilege to see campus grow from a few small buildings to many add ons with great features. Nothing tops the teaching staff and learning opportunities this school provides especially in the English department. Our football team isn't the best, but the school spirit is astounding. Teachers genuinely care about each and every student making sure they are seen and taught in a way that benefits them personally.

Rocky Bayou is a small campus with a big heart! Our teachers are not just experienced educators, they are motivating! Caring! Genuinely interested in our futures, and our present. Teachers at Rocky take time to talk with their students and help them through challenging endeavors. The friendships I made with both my peers and my teachers as well as administrative staff have made my life better, made me a better person, and have given me a strong foundation for my future.

I am a parent of 2 girls who have been at this school since kindergarten. One is graduating high school this year, the other is going to be in 10th grade next year. The teachers and staff are wonderful and caring. The student-teacher ratio is small, so the kids get all the attention they need from the teachers. The school is a college-preparatory school, so the kids graduate extremely well prepared for college. They have lots of sports and extracurricular activities available. I can't say enough wonderful things about this school!

This school has singularly helped shape me more as a person than anything else. Even though I've moved, I still carry all of the life lessons, faith in God, and academic foundation that I gained at Rocky. The atmosphere is great, all of the kids are friendly and inclusive because kids leave so often with the military base nearby and the locals take what they can get for new friends. The teachers genuinely care and make college-level information easy for middle school students to understand, and the art program is amazing, emphasizing literature and music as a way to help our academics. They even have a culinary club lead by an awesome woman with a true love for cooking and history. And a best-in-state academic team!
